

SCC Meeting Minutes

Members in attendance:

- Jodie Osofsky - chair
- Jim Jensen - vice chair
- Nikki MacKay (parent)
- Craig Marsh (parent)
- Holli Allred - PTA
- Katie Redd (teacher)
- McKay Robinson - Principal

Agenda items discussed:

1. Spring due date of may 15th moved up to March 28th. Items due discussed at the end of the meeting.
2. Update on superintendent search: Applications are out for the position and they hope to have applicants to review resumes and begin interviews end of May for a potential decision in June.
3. A few items of concern brought forward by parents through the committee members:
 - A. On Friday there is no aide for Kindergarten before school on the Kindergarten playground. **(response)** *There are no aids on staff at that time due to the earlier time on Fridays. The reason there are aids available other days is due to their scheduling and availability. This is also not part of their job description and cannot be relied upon.*
 - B. There is not a crossing guard right when the school gets out in front of school: **(response)** *Despite several attempts to fill that crossing guard position, it remains empty and the teachers are left to cover the best they can. Unfortunately there isn't always someone to watch their class prior to the bell, so they can be there early. The position is available and **is** a paid position. If you know of someone that can meet the hours and would like to apply, please have them contact the school asap.*
4. Attached to the agenda were some current legislative bills that could effect the council directly as well as our schools. Discussions about SB11S2 and SB1181S occurred. Concerns with what could happen with Land Trust Funds. As it stands, if additional funds became the responsibility of the School Council, the Land Trust Funds would remain the same and the process would as well. The additional funds would require a different system run by the committee and more time and meetings would be required. **see agenda for complete list of potential bills.*
5. Progress report for the School Land Trust program (current year) is as follows:

The T2 interventionists that were hired are continuing to make strides and check their progress. They meet, discuss and change their course as needed to achieve the same growth results as last year.

Monday February 24, 2014

6. School Land Trust Plan for next year:

The CRT has been removed and will not be assessed this year. The children will now take the SAGE at the end of the year. The BLT and Special Ed team met and proposed to continue with the CBM as a source of measurement for Land Trust Goals, etc. In addition to those, they recommended the CFA because it is 100% core curriculum based. After discussion, the members of the SCC voted for the following plan:

- 80% of students reach efficiency in the core. This will be gaged in future years by the CFA, CBM and SAGE. This will be gaged in future years by the CFA, CBM and SAGE.

Funds, other than Land Trust, will be used to continue to add to the science program that is already in place.

Next meeting is May 12, 2014 @ 3:30 in the library
